About the Role

We have an exciting opportunity for an experienced Electrician or Electrically skilled Facilities Maintenance Engineer to join the team. The successful candidate will be responsible for installing temporary power systems in accordance with BS7671 and BS7909, supporting our busy events programme. Previous experience within the industry, or a strong willingness to apply existing electrical skills and knowledge in this fast-paced and rewarding sector, is essential for success in the role. In addition, the role will involve carrying out both planned and reactive maintenance across the campus, making experience in the following areas advantageous:

- Electrical maintenance and installation work
- Inspection and testing
- Emergency Lighting testing and repair
- Lighting control and BMS system operation
- HVAC systems with respect to servicing and fault finding
- Energy management
- Standby generation plant

The successful candidate will be responsible for overseeing work undertaken by service partners and must demonstrate a strong working knowledge of current Health and Safety regulations, ensuring full compliance at all times. Essential experience includes the development and completion of risk assessments, work permits, and maintenance procedures, as well as a sound understanding of energy-saving initiatives and schemes.

If you are a hardworking and committed professional ready to contribute to our continued success, we'd love to hear from you.

Join us at The ACC Liverpool Group and be part of something extraordinary.

Please note, we may close this vacancy before the stated closing date if we receive sufficient applications for the position. Therefore, if you are interested in this position, please submit your application form as soon as possible.

Closing Date: 31st December

Interview Date: January 2026 (date TBC)
